

Interplay  Learning

ONLINE VOCATIONAL TRAINING

GIVE STUDENTS 24/7 ACCESS TO ONLINE, ON-DEMAND COURSES IN THE ESSENTIAL SKILLED TRADES

Virtual learning is in high demand, but for skilled trades students, this poses a unique challenge. In an industry where real-world equipment is needed and hands-on training is preferred, instructors are struggling to supplement in-the-field training for remote teaching. SkillMill™ is the leading global provider of online, on-demand skilled trades training designed to bring field-like training to your online classroom.

- Lifelike replicas of field equipment give you the reassurance students are digitally training for real-world jobs.
- Interactive 3D and VR simulations provide engaging training proven to have higher retention rates than traditional teaching methods.
- Expert-led courses provide students with continuous learning and support as they prepare for their transition from the classroom to the field.

**BOOST
COMPETENCY AND
CONFIDENCE OF
YOUR STUDENTS.**

- Expand your curriculum with access to more than 200 hours in HVAC, plumbing, electrical and more.
- Encourage students to prep for their NATE exam or retain their certification with NATE-certified courses.
- Use Command Center to assign, test and grade, all in one place.
- Schedule mandatory compliance training to ensure students leave your program well-versed in on-the-job safety.
- Allow students to safely troubleshoot in a safe, risk-free learning environment.

TOOLKIT+TECH
equipping the future

A new way to apprentice.

3D and VR simulations for skilled trades training

Allow students to learn better, and learn faster, with SkillMill's Digital Experiential Learning (DEXL) platform. With on-demand courses in HVAC, plumbing, electrical and more, encourage students to learn at their own pace. Work through any course, at any time, on any device.

Create

Supplement in-the-field training with online courses in a variety of skilled trades. Use existing learning paths or create custom paths that cater to the needs of your program.

Assign

Browse our [catalog](#) for hands-on courses in plumbing, HVAC, electrical and more. Assign courses to individual students or assign by class.

Test

Utilize our skills assessments consisting of a multiple choice exam that will test your students in all areas of general skilled trades knowledge.

Score

Grade and manage your students coursework in one, easy-to-read dashboard.
