

The ConsuLab EM-200-11 trainer allows for the demonstration of a complete blower motor system using real-world components. Terminal block receptacles are provided for diagnostic test points.

Educational Advantages:

- Ability to visualize the operation of a blower motor control unit.
- Ability to test and verify a basic blower motor circuit.
- Four operational faults can be inserted to promote student diagnostic troubleshooting competencies.
- Includes wiring schematics

Included Components:

- HVAC control module.
- Blower motor.
- Blower motor resistor.
- Fault box with 4 faults.
- Test points for diagnosis.

Application: 2010-011 Hyundai Accent.
