

MADE FOR WELDERS

Cobot Welder UR10e/20

powered by beaçon

WHY MADE FOR WELDERS MATTER

Empowering your existing workforce to be part of the solution will keep your existing welders engaged (and employed!) with your organization longer.

Welders care about torch angles and weld settings, not TCPs and coordinate systems.

Traditional automation cells are not suited for your high-mix and low-volume productions.

Investing in traditional arc welding automation will simply substitute your challenge of hiring & retaining skilled welders with skilled robot programmers.

WELDING COBOT PROGRAMMED WITH YOUR PHONE OR TABLET

Easiest Cobot Teaching

No robotic or programming knowledge needed. Teach all your welds through the app!

Weld Any Material

Our clients have successfully welded steel alloys, aluminum, stainless steel, and more.

Automate Any Manual Process

Successfully make TIG-quality welds, and improve your manual Stick, and MIG output!

Fast Shipping

Your industrial-grade welding cobot will be shipped within two weeks.

Instant Support

Our average response time is two minutes and directly through our cloud-based app!

Maximize Production

Get real-time data and instant notifications to monitor throughput and operational efficiency.

“Bringing in the cobots (Cobot Welders) and get them up and running, it actually increased our output 400%.”

- Mark Moyer, Advanta Southeast

Robot Reach

- Universal Robots - UR10e - 51”
- Universal Robots - UR20 - 69”

Welding Power Source

 **Miller** | Miller Invision 352MPa w/ S-74 MPa Plus

- 208v - 575v single or three-phase
- 350 Amps

 **ESAB** | ESAB option available

Welding Torch

- UR10e - Tregaskiss Tough Gun MIG welding gun
- UR20 - Tregaskiss Tough Gun I.C.E. MIG welding gun

Accessories

- Hirebotics' Smart Puck for software-free teaching
- Operator Panel with emergency stop
- Beacon Application

Welding Table

- 5/8” Holes on a 2” spacing
- UR10 - 32x48” Siegmund Assembled Cart
- UR20 - 32x48” Siegmund Assembled Cart + 5x10’ Table

Warranty

- 3 years on welder and feeder
- 2 years on everything else, including robot

BeaconCare

- \$5,000/year per robot
- 50% off non-warranty repairs
- Loaner equipment if the unit needs to go to service/repair
